PRESS RELEASE

OMIClear recognised by the Bank of England under UK EMIR

Lisbon, 2 November 2026

OMIClear C.C., S.A. has been recognised by the Bank of England under UK EMIR as a Tier 1 non-UK Central Counterparty (CCP), with effect from 29 October 2026.

This regulatory approval enables OMIClear to provide the services covered by the Bank of England's decision to UK clearing members and trading venues, further strengthening its international presence and its ability to serve market participants across different jurisdictions.

This milestone represents another important step in OMIClear's strategy to strengthen its presence in international markets, while maintaining its commitment to providing reliable clearing and settlement services and contributing to the security, transparency and efficiency of energy markets.

About OMIClear

OMIClear is the Clearing House and Central Counterparty (CCP) of the OMI Group, based in Portugal and authorised under EMIR, providing clearing and settlement services for energy derivatives markets since 2006.
Its activities cover Iberian and non-Iberian electricity derivatives traded or registered on OMIP, as well as natural gas derivatives traded or registered on OMIP, MIBGAS and MIBGAS Derivatives. Its offering includes a range of instruments, maturities and profiles, with physical or financial settlement.
As a central counterparty, OMIClear plays a key role in counterparty risk management and in ensuring the safety and efficiency of transactions, contributing to the robust and transparent functioning of energy markets.
